Pathway to Love

**2 days workshop
by Rose Sangregorio**

July the 24th and 25th 2010.

We're all searching for it - **love**. During the "revolution of love" in the late 60's The Beatles sang "All you need is love"- yet there have never been more people living as singles in Denmark. What are the elements that prevent us from creating the love we want in our heart and in our life?

We're going to work from your own experiences and convictions about what love is. We'll take a look at the pattern of sex roles and identity, what kind of personal types we're attracted to and why, as well as our behaviour related needs and cultural codex.

We're going to take a closer look at the nature of love and its expression on the physical, mental, emotional as well as spiritual plane. We will work on transforming the ego attitude ("if you get this from me, I expect to have this from you") to unconditional love.

Sexuality is an important and powerful part of our life and culture. How does it work, what happens during the act of sex, and what kind of influence does it have on us?

With guidance from the spiritual source, and through meditation and spiritual practices, you will receive practical concepts and understanding of what it is to be in a Sacred Relationship with yourself and others. Furthermore the exercises will help you in transforming your blocks, by creating balance between the male and female energies within your self. Like this you will be able to create more harmonious relationships with those around you.

You don't need to be in a love or partner relationship to attend this class. This will benefit all those who attend; singles and couples.

WHO IS ROSE, AND HOW DOES SHE WORK?

Rose lives in Calgary, Canada. She teaches around the world in non - dualistic spiritual understanding and personal development.

Rose's personal life took the form as many others; family life and a successful career. However, when she turned 30 her life changed dramatically. This caused her to investigate the nature of the human mind, structure of life and spirituality. For years she worked systematically and disciplined herself, and thereby she retrieved the special gifts she was born with.

Today Rose is known around the world as a pure and clear Conscious Channel, a skilful healer as well as a dynamic and inspiring spiritual teacher. She has developed her own special training programs which everyone can use successfully. Because of her ability of receiving and passing on spiritual information and healing, she is able to coach and guide people in their personal process in opening to their highest potential and consciousness. Through this they can connect to their own true identity and source.

Rose shares the Divine energy of unconditional love with all whom she encounters.
